With google adsense , If you Work hard , you can make over 1500\$ per month , and it's pretty

To start you need a blog :

<http://www.blogger.com/home>

Post your blog in the program adsense. You must be accepted in adsense in order to start.

Then we will use, Palringo available here (it's like Telegram) :

<http://www.palringo.com>

Once you have your ads in your blog , you can start !

I make around \$50 everyday putting in about 25 min of work.

You need to exchange your blog with other person. I use Palringo groups for my exchanging.

Here are a few of the terms you will come across when exchanging:

Imp = Impression (X amount of refreshes on the person's website)

Ad click : This makes the person's CTR go up, which gives more money per ad click.

You may be asking "Why would I do this for another person?"

The answer is simply, because they will return the favor. So say you want 20 imps, and 1 ad click they would tell them that, also telling them the proper wait times wouldn't hurt either.

Here's the message I paste to them when exchanging:

Please read and follow these carefully.

- (y) Use Google Incognito (Ctrl + Shift + N)
- (n) Don't use a VPN or proxy.
- (y) Wait 10 seconds between each impression
- (y) 20 Impressions on the website (1 impression = 1 refresh)
- (y) 1 ad click
- (y) Click the ad at the bottom of the page
- (y) On the last impression wait 30 seconds before clicking the ad. [THIS IS IMPORTANT]
- (y) Post proof without http or www
- (n) Don't post the http or www

Website: Yourwebsitehere

I will do the same for you!

-----

The most important thing is to wait 30 seconds after the last imp, and to not post http:// or www  
When posting proof.

BONUS :

Groups to join for exchange (some don't exist anymore or just change their name regularly) :

PrivateExchange

HackingCafe

Exchange

ana ex

adsense

adex

You can use the search function of Palringo or even in Facebook groups (look for C4C adsense new groups :

Enjoy!
